Insurance Claim Update

We're happy to report major progress on recent repair and improvement projects.

Brick Work

Thank you to Nate Nadeau for managing the brickwork at the entrance before the guardhouse and along the outside of the building. The job is complete—and it looks fantastic.

WPA Office Repairs

A huge thank you to Nate Nadeau and Stan Earnhart for their outstanding coordination on the WPA office repairs. Thanks also to Skip Reitmeier for securing the door purchase. Stan drove over an hour to Little River to pick it up, and Nate handled the installation with Stan's help.

Nate put in hours realigning walls, installing sheetrock, taping, spackling, and matching the paint perfectly to the existing color. Russ made a Home

Depot run to get the door lock so the job could be finished the same day.

Last week, Stan wrapped up spackling, painted the walls, and completed the trim work around the door and floor. A few minor touch-ups remain, but the space already looks great. Next up: we'll be collecting bids for the patio work.

Boat Landing

The boat landing upgrades are complete and look excellent. Many thanks to Seven Seas for their high-quality work, and to Chris Carroll and Adam Anderson for overseeing the project.

Front Entrance Landscaping

The front entrance flowers look beautiful. Credit goes to Jennifer Lawrimore and Jill Huggins for the design, and to Mark Howard and his crew—Lisa and Ron—for planting everything. Great job, all around.

Food Truck Tuesday

Food Truck Tuesday continues to be a great community event, despite last week's cancellation due

to rain. Thank you to Stephanie Hanson for taking the lead and keeping it running smoothly.

Memorial Day Volunteers

With Memorial Day approaching, we're looking for volunteers to help place flags at the entrance. Details will follow

Thank you all for your continued support—it's been a true team effort.
