

ROADS REPORT--- 5.20.2025

My report is as follows:

I have two quotes in for the proposed roadwork that was discussed at the last meeting and still need to get a third set in.

I looked at the end of Francis Parker and there is standing water after rains so I will get that quoted as well.

Also need to define the roadways in the condos and on Robert Conway that are WPA responsibility and get those quoted.

I will also try to recruit more Road committee members to add to the team.
