Drainage Report

July Monthly Meeting

The Drainage Committee received a report of a sinkhole on Daniel Morrall the evening of June 26. Stan Earnhardt was the first on the scene and put out cones. He and I met with Lowcountry Grounds the next morning to evaluate the situation. I met with Greenwave Construction 2 days later and have received bids from both companies.

I recommend the bid from Lowcountry Grounds as it is a more comprehensive repair. Coordination with the Roads committee will be needed to determine what sort of finish will be necessary based off the paving schedule.
