

President's Report

August 19, 2025

I will keep this brief since we have a lengthy agenda. Once again the last month has been chaotic and emotions have been running high. A town hall meeting regarding dredging was held on August 5th followed by a special open board meeting on August 12. By a vote of six to three the board voted to approve the Brunswick dredging contract. Details of this will be forthcoming in the financial report and the Water Amenities report.

On a lighter note, the Little Free Library has been installed with a kickoff on July 26. A team of volunteers will continue to maintain it. It is conveniently located outside the office so you can easily stop by on your way into the community.

Thanks again everyone, for being here and staying engaged. We may not always agree, but we're all in this together.

Marilyn Weitz
