

Five Year Planning Committee
February Report

On February 5, the 5YPC met to review last year's committees' project plans, current reserves, and budget. Per policy, we requested new five year plans from committees that are responsible for the following areas:

Roads

Drainage

Water Amenities

Storm Recovery/Grounds

WPA Office/Administrative/Finance

We have requested plans to be submitted to our committee by March 8. We will begin to compile and analyze this data for sharing with the Finance committee and the Board at that time.

Respectfully submitted,

Bryan Lawrimore
